

Bolidtop® and Bolideck® can be found just about anywhere

Olympic Swimming Pool Beijing

The Beijing Olympic Swimming Pool is one of the main eye catchers of the Olympic Games. Bolidt has designed and fitted a very special floor to the VIP bar in the Olympic swimming pool in Beijing. The colour and image of the floor matches seamlessly to the unique architecture of the "Water Cube". [Read more...](#)

Moerdijk Bridge

Bolidt has applied both the adhesive layer and the wearing course on the Moerdijk Bridge. The adhesive layer has been applied with the mobile Bolimix machine and the spreading machine connected to it. The spreading machine ensures that the Boligrip® adhesive layer is applied in the right thickness. These developments have further increased the application speed. [Read more...](#)

ASDA Stores

ASDA Stores are a chain of supermarkets in the UK that have been part of the Wal-Mart Family since 1999. They have positioned themselves as supermarkets that will not settle for an average performance. This has been the motivating factor behind the collaboration between Bolidt and ASDA. People do their shopping on Bolidt flooring in various supermarkets of ASDA. [Read more...](#)

Indonesian Navy

In addition to the corvettes for the Dutch Navy, The Royal Schelde Shipyard is now also building 4 corvettes for the Indonesian Navy. Bolidt has enjoyed working with the Dutch Navy and Royal Schelde for years now. Bolidt has developed a synthetic deck especially for navy applications. [Read more...](#)

Heineken

These days, Heineken is on sale in over 170 countries and it is the most successful brewery in the world. Heineken is *the* premium beer and its green bottle is recognized by people all over the world. The company is even active with its breweries in the Congolese capital of Kinshasa! In typical Bolidt fashion... [Read more...](#)

The Greenery

Food safety is a permanent focal point in The Greenery's business strategy. It goes without saying that their own facilities come up to the strictest hygiene and food safety requirements. This is one of the reasons why the Bolidtop® system has been installed. The slightly non-slip finish produces safety in the hall, while the floor can still be optimally cleaned. [Read more...](#)

Bolidtop® and Bolideck® can be found just about anywhere

Dolce & Gabbana

These days, Bolidt offers architects the opportunity to work together on a design that fully meets the requirements and wishes of the customer. The architect working for Dolce & Gabbana Düsseldorf and Barcelona eagerly seized the opportunity. The resulting design is characterized by class and elegance. [Read more...](#)

Mercedes Benz Museum

It is beyond dispute that a legendary car brand like Mercedes-Benz deserves a museum. When designing this museum, Ben van Berkel of UN Studio must have thought that Mercedes-Benz does not only deserve a museum, but particularly a worthy monument. A stately monument with Bolidtop® museum flooring! [Read more...](#)

Küchen Aktuell

The new kitchen centre in Berlin Tempelhof sets standards with respect to architecture, design and size and thus responds to the requirements of the demanding metropolitan customer. With Bolidtop® FiftyFifty, Bolidt has set new benchmarks in flooring! [Read more...](#)

Delft Research Center Nanotechnology

The construction of the Delft Research Center Nanotechnology is placing Delft at the forefront of activities in the field of nanotechnology. The ultramodern facility will also attract a high level of world-wide attention. The contribution of the flooring is extremely important in this research complex! [Read more...](#)

Meyer Werft

Major shipyard Meyer Werft of Papenburg, has chosen Bolidt from more than 100 companies as its partner of the year for 2007. Meyer Werft is one of Europe's largest shipbuilders, and its primary business is the construction of special-purpose ships, such as cruise ships, RO-RO ferries and gas tankers. [Read more...](#)

Hongta Group

Hongta Group is the largest tobacco manufacturer in China. They went out of their way to find a floor finish for their Shenzhen factory. The Bolidtop® 700 system met the requirements. The mechanically compacted floor with terrazzo appearance has a very high load bearing capacity. [Read more...](#)
